

Andrew Bartsch

Peer Review for Kaleb

Working with you was fine. I didn't really like that you did most of it outside of class but to be fair I would've done the same thing given that Debbie would've allowed me to so can't really hold it against you and it was nice because it meant that we got the project done a week before anyone else. Other than that everything else went fine and it was a enjoyable experience working with you.
